May 11, 2026

Dear Valued Client,

We are writing to inform you of an upcoming adjustment to our self-pay session rate at Footprints Mental Health Counseling, P.C. Effective **June 11, 2026**, our out-of-pocket rate for therapy sessions will be updated from **\$95.00** to **\$150.00 per session**.

This adjustment reflects our ongoing commitment to providing the highest quality mental health care, investing in our clinical team, expanding our services, and maintaining the exceptional standard of support you deserve. We do not take this decision lightly, and we are grateful for your continued trust in Footprints.

Please note the following:

- This rate change applies to self-pay clients only. If you have insurance, your copay, coinsurance, or deductible amounts are determined by your insurance plan and are not affected by this notice.
- The new rate of \$150.00 per session will take effect for all appointments on or after June 11, 2026.
- Sessions scheduled and occurring before June 11, 2026 will be billed at the current rate of \$95.00.

We understand that cost is an important consideration in accessing mental health care. If you are uninsured and have concerns about the new rate, we encourage you to contact our office to inquire about our sliding scale program. Sliding scale rates are available exclusively to clients without insurance coverage and require a formal request and eligibility review.

To submit a sliding scale request or speak with our team, please call us at (917) 352-3625 or email [intake@footprintstofeelbetter.com](mailto:intake@footprintstofeelbetter.com).

We remain deeply committed to making mental health care accessible to our community and to supporting you on your journey toward healing and wellness. Thank you for being part of the Footprints family. We are honored to walk alongside you.

Warm regards,

**Footprints Mental Health Counseling, P.C.**
